

S&S Activewear Plugin

1- Cron Jobs settings:

Please see the Cron Settings guide.

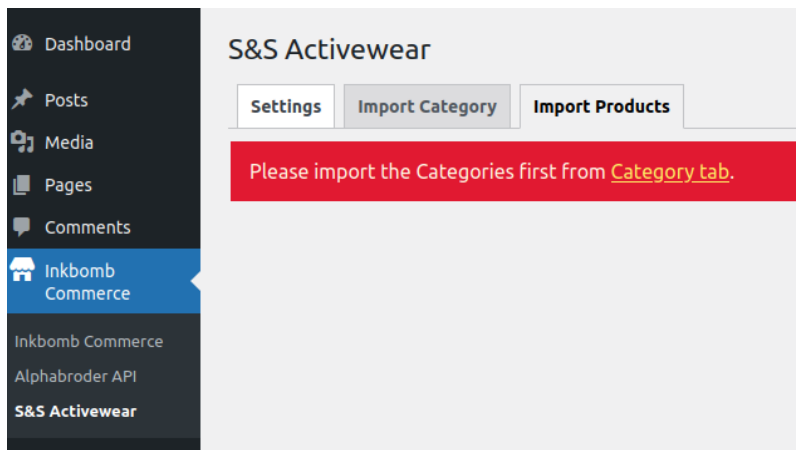

2- Plugin Settings:

- Navigate to **Inkbomb Commerce > S&S Activewear** and from the **Settings** tab, set the username, api key and other settings.

The screenshot shows the 'S&S Activewear' settings page. On the left is a dark sidebar menu with options: Dashboard, Posts, Media, Pages, Comments, Inkbomb Commerce (highlighted), Inkbomb Commerce, Alphabroder API, S&S Activewear, WooCommerce, Products, Payments, and Analytics. The main content area has a header 'S&S Activewear' with three tabs: 'Settings' (active), 'Import Category', and 'Import Products'. Below the tabs is the 'S&S Activewear Settings' section. It contains four fields: 'Account number' with the value '414244'; 'API key' with a masked value '.....'; 'Append Brand Name to title' with a dropdown set to 'Yes' and a note 'Appears before the title. For example: "Addidas - Product Name"'; and 'Append Style Name to title' with a dropdown set to 'Yes' and a note 'Appears after the title. For example: "Product Name - StyleName"'. A blue 'Save' button is at the bottom left of the settings area.

- **Account Number:** The API account number.
 - **API Key:** Provide the generated API key.
 - **Append Brand Name to title:** Appends the brand name before title when set to "Yes".
 - **Append Style Name to title:** Appends the style name after the title.
- You must import the categories before importing the product. The import action is not allowed if categories were not imported.

- Import the categories using the **import categories** tab.
